

Hand Sanitizer

Hand sanitizer is an important part of the 24-point procedure we perform during each portable restroom service. Our convenient, self-contained, dispensing hand care system kills 99.9% of most common disease causing germs in seconds. Mr. John's hand sanitizer meets CDC recommendations for alcohol content.

As a market leader with a commitment to our brand ideals, and those of our customers, Mr. John includes hand sanitizer as part of our standard service with all of our products that do not include freshwater hand wash.
